Summary

3rd-year B.Tech student with hands-on experience in app development and IoT projects, skilled in Python, Swift, and Rust along with modern frameworks. Driven to build impactful real-world solutions while continuously learning, improving problem-solving skills, and growing as a developer.

Education

Galgotias University <i>B.Tech Computer Science</i> ◦ CGPA: 8.72/10.0	<i>Sept 2023 – Aug 2027</i>
Class XII, CBSE ◦ Percentage: 80	<i>2022</i>
Class X, CBSE ◦ Percentage: 86.4	<i>2020</i>

Skills

Programming Languages: Python, Java, Swift, Rust

Frameworks/Tools: SwiftUI, Xcode

Soft Skills: Problem-solving, Teamwork, Adaptability, Quick learner

Other: Git, Linux, Figma, Android Studio, VS Code, Jira

Competitive Programming: Solved 500+ problems with 1650+ contest rating

[Profile](#) 

Projects

CosmicLang ◦ Developed “CosmicLang,” a custom programming language to demonstrate core compiler design concepts. ◦ Implemented a lexer, parser, and AST-based interpreter in Rust for tokenization, parsing, and expression evaluation. ◦ Delivered a functional language showcasing end-to-end compilation flow and execution. ◦ Tools Used: Rust	CosmicLang 
---	--

Logic Hoot ◦ Developed “Logic Hoot,” an iOS app to simplify digital logic learning through interactive simulations and hands-on circuit building. ◦ Implemented modules for logic gates, adders, and latches, along with a guided circuit playground and on-device AI for real-time doubt solving. ◦ Delivered an intuitive and engaging user experience that improves conceptual understanding through practical experimentation. ◦ Tools Used: SwiftUI, Xcode	Logic Hoot 
--	--

Experience

◦ **iOS Development Intern: Infosys, Mysore**

Internship Trainee
